UNLOCK YOUR DATA

No Matter the Device.
No Matter the Location.

You have a myriad of school-owned devices,

operating systems, educational technology, and platforms. They are spread far and wide across multiple schools and thousands of students. Managing this vast library of resources and tracking usage and renewal information is a nearly impossible task for today's already time-strapped technology and curriculum teams.

CatchOn is an easy to implement, easy to use, super-charged tool that provides districts with the actionable data needed to improve instruction, assess return on investment, and inform professional development and student data privacy practices.

Why CatchOn is the go-to tool for educational administrators:

ABILITY TO COLLECT OFFSITE DATA

Learning doesn't stop when students leave school. It's critical that districts have 24x7 access to the actionable data being generated on all school devices inside and outside of the classroom. CatchOn's advanced agent technology provides districts with the metrics, insight, and reporting they need to effectively assess the usage of their technology investments.

DEVICE INTEROPERABILITY

CatchOn is designed specifically to support today's device agnostic, anytime/anywhere learning environments. Unlike most data analytics tools, which may favor one type of device or operating system, or require significant backend configuration, CatchOn compiles data from all platforms and devices without requiring extensive technical resources from districts.

SIMPLE, SEAMLESS, AND SPEEDY DEPLOYMENT

Easy to deploy without the need for on-site equipment, CatchOn's advanced agent technology eliminates the need for extra capital expenditures and enables districts to begin seeing and experiencing their data shortly after agent deployment.

Why CatchOn?

MONITOR MEASURE ADAPT

DETECT TRENDS

STUDENT DATA PRIVACY

INVEST WISELY

IMPROVE USAGE

Invest Wisely
Evaluate software renewals with actual usage and financial data, not surveys.

Detect Trends
Discover what free or unknown apps are being used.

Manage Subscriptions
Manage licenses, costs, ROI, and renewals from an easy-to-access dashboard.

Inform Training
Identify gaps in usage by tool to create targeted professional development and training plans.

Student Data Privacy
Diagnose applications vulnerable to student data privacy policies.
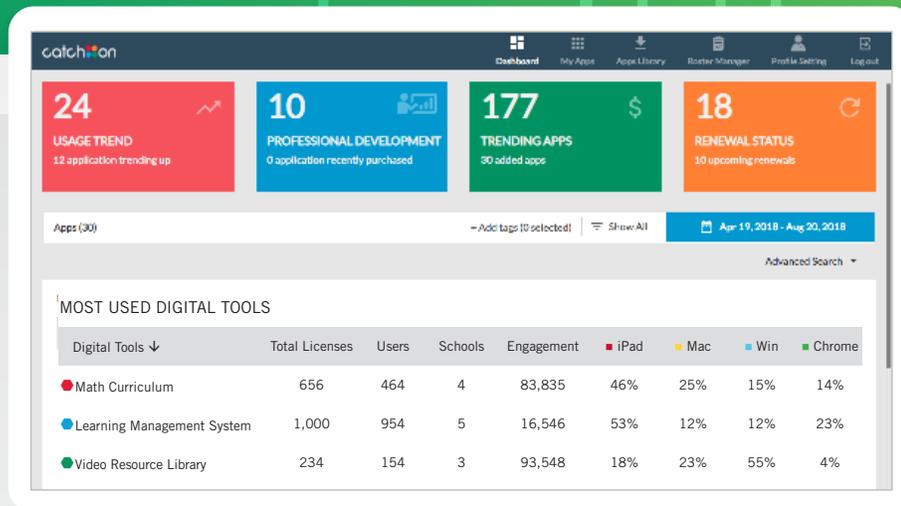

Improve Usage
Review important classroom apps to ensure they are being used effectively.

ABOUT CATCHON
CatchOn is a user-friendly data analytics tool that compiles real-time data on every device, enabling school districts to make data-informed decisions about the apps and online tools their educators and students are using. In 2018, CatchOn joined forces with ENA, a leading provider of comprehensive technology solutions to education institutions and libraries across the nation. Collectively, CatchOn and ENA leverage their respective resources and expertise to deliver critical services and solutions that help school districts produce positive outcomes in the communities they serve.
