catchon

Your Gateway to Data-Informed Decisions

CatchOn is a powerful tool that provides administrative leaders a window into the efficacy of their district technology investments and integration. Our advanced agent technology enables users to:

- Compile 24x7x365 real-time usage data on every school device type (Chrome, Windows, and Mac)
- Attain visibility into all online software and app activity, including website activities
- Gather quick insight into technology integration with auto generated reports
- Experience 100% visibility of app activity on 100% of all school devices*

Why CatchOn?

	Invest Wisely Evaluate software renewals with actual usage and financial data, not surveys.		Inform Training Identify gaps in usage by tool to create targeted professional development and training plans.
	Detect Trends Discover what free or unknown apps are being used.		Student Data Privacy Diagnose applications vulnerable to student data privacy policies.
	Manage Subscriptions Manage licenses, costs, ROI, and renewals from an easy-to-access dashboard.		Improve Usage Review important classroom apps to ensure they are being used effectively.

**Applications include those provided by the district plus thousands of additional applications in CatchOn's growing library.*

Do you know how your applications are being used?

CatchOn's intuitive dashboard enables you to quickly access critical information and perform on-the-spot analysis.

Simple. Seamless. Secure.

CatchOn is the only proven solution for Chrome, Windows, Mac, and iOS • Operates through an agent installed on school devices • All data is de-identified for student data privacy • Data downloads into CSV files • Auto generated reports available

“Over the last few years, we have deployed thousands of devices within our district. We needed a way to track what tools and applications our students and teachers are using on those devices to optimize and safeguard our learning environments. CatchOn provides us with actionable information we can use to make data-informed decisions, identify trends, and inform professional practices.”

— Jeremy Bunkley, Director of Information Services, School District of Clay County, Florida

ABOUT CATCHON

CatchOn is a user-friendly data analytics tool that compiles real-time data on every device, enabling school districts to make data-informed decisions about the apps and online tools their educators and students are using. In 2018, CatchOn joined forces with ENA, a leading provider of comprehensive technology solutions to education institutions and libraries across the nation. Collectively, CatchOn and ENA leverage their respective resources and expertise to deliver critical services and solutions that help school districts produce positive outcomes in the communities they serve.
